Examples/Notes: Evaluation of recreation sites or areas to determine whether or not specific recreation management objectives are being met. Recreation management objectives are established in resource management plans, recreation activity plans, or interdisciplinary planning documents. Evaluations may be triggered by specific time periods identified within the planning document, by reaching established thresholds of a resource or social indicator, or by a management decision to determine if recreation management objectives are still valid within any recreation site or area. The evaluations would relate to objectives concerning physical, social, managerial settings and/or resource conditions. Evaluations are documented and recommendations made, resulting either in a continuation or a change in management prescriptions or practices.
